BNP and EDL not welcome in Liverpool

The British National Party and English Defence League have announced their intention to hold a protest at Liverpool Crown Court on Monday 6 February. They are exploiting a case of 11 Asian men from Rochdale who have been charged with child exploitation and sex offences, to bring their racist message to the streets of Liverpool.

We believe that this case is a matter for the police and courts. Furthermore, the BNP and EDL's cynical exploitation of the case for its own ends, does nothing to help the suffering of victims of such abuse.

If the men involved were not Asian then it is clear that this protest would not be taking place. We believe that the BNP and EDL are using this case to attempt to whip up racism and foster division.

We call on everyone to join a dignified counter-protest at Liverpool Crown Courts. Let the racists and fascists of the EDL and BNP know that they are not welcome here.
